

Car Seat Recalls/Defects & Safety Notices - Revised 5/26/23

Ensure you are looking at the most recent list! Scan the code (left) using a smartphone camera or app. This printed list includes child restraints manufactured after 1/1/2013 (most recent addition shaded gray).

Note: Since most car seats expire in fewer than 10 years from the date of manufacture, some car seats on this list may no longer be covered by the recall notice; rather than be repaired, they should be replaced and properly discarded. Contact the manufacturer for all recall details.

Find this list under Resources at www.saferideneews.com. This recall list format was originally developed by the WA State Safety Restraint Coalition and is currently maintained by Safe Ride News Publications.

Combination Seat

Hybrid 3-in-1 Combination

Booster (Desert Blue, from Walmart)

Model: #FB49E14A 12/21

Made on: 12/6/2021

Problem: The LA strap, if frayed, may not meet the strength required by FMVSS 213 and FMVSS 209. Registered owners will automatically receive a replacement LA attachment and instructions. Until received, install CR using a seat belt. If a seat belt *cannot* be used, inspect the original LA strap carefully for

5/26/23

fraying or other damage and, if in good condition, use it only until it can be replaced.

Call 800-328-7363 for information or search Recalls and Safety Notices at www.babytrend.com.

Hybrid 3-in-1 LX model FB48417 made 7/14/16 sold only at Wal-Mart & model FB58181 made 7/23/16 sold only at Military Exchanges. **Problem:** In a crash, center adjuster may detach in harnessed mode if child weighs more than 40 pounds. **Call:** 800-328-7363 (NOTE: This car seat in harness mode is now expired.)

3-in-One TrendZ Fastback Models FB60070, FB60408 made 10/11-7/13. **Problem:** Buckle may become difficult to unlatch or become stuck in latched position. **Call** 800-328-7363 for new buckle. (NOTE: This car seat in harness mode is now expired.)

RF-Only Seats

Liing Model LG19U1 and

Liingo Model LGO20U1

Problem #1 of 2: On units made prior to 9/15/2020, the canopy support can break under pressure, posing a choking hazard if small pieces are ingested by a child.

Call: 866-656-2462 for a stronger canopy stay; it's safe to use the CR until fixed if canopy is intact.

Problem #2 of 2: On units made prior to 2/22/2021, labels on the seat padding and insert may detach, posing a choking hazard if ingested.

Call: 866-656-2462 for replacement pad/insert; it's safe to use the CR until fixed if labels are intact.

Convertible Seats

Filo Model FL15-FO19 and

Foonf Model FO12-FO19

Made: prior to 5/21/21.

Problem: Pieces of foam cushion from under the padding can be picked loose by the child, posing a

choking hazard if ingested.

Call: 866-656-2462 for a plastic insert; monitor child behavior until the repair kit is applied.

Booster Seats

Olli Model OL12U2 made 1/20/20 through 5/10/22

Ozzi Model OZ11U2 made 3/1/2020 through 5/10/22.

Problem: Diagram for lap-and-shoulder belt routing not on label.

Call: 866-656-2462 for a new label; refer to owner's manual for belt use instructions until label replaced.

Columbia Medical

(See Inspired by Drive)

Columbus Trading-Partners U.S.A, Inc.

(See CYBEX)

Combi USA, Inc.

Email customerservice@combiusa.com

Convertible Seats

Coccoro Model 8220

Made 1/1/09 through 7/31/16.

Problem #1 of 2: When installed FF and secured with vehicle LAP-ONLY belt, excessive force may be transferred to the car seat.

(Note: Recall does not affect rear-facing mode or when the car seat is installed forward facing with a lap/shoulder belt and lock-off or lower anchors and tether.)

Contact: Go to combiusa.com (select Safety Notifications)

Problem #2 of 2: Made 1/6/09 - 12/5/12. Harness webbing fails to meet minimum strength requirements.

Email: customerservice@combiusa.com

Note: Problem #2 units are now all expired.

Zeus 360 made 2/25/09 - 5/24/12,

Zeus Turn made 7/15/07 - 3/25/09

Problem: Harness webbing fails to meet minimum strength requirements.

Email: customerservice@combiusa.com

Note: These units are now all expired.

BabyRide RF-only car seat (no base), model #378099, manufacture dates 5/1/2016—8/31/2019.

Problem: The webbing of the 1-inch harness adjuster strap fails to meet the breaking strength requirement of FMVSS 213. Since the segment of this strap that falls *behind* the A-lock adjuster is part of the overall harness, this strength issue could potentially cause an infant to be improperly restrained in a crash.

IMPORTANT NOTES: This model is branded by its manufacturer, Nania. During a portion of the recall period, units labeled as Nania BabyRide were imported into the U.S. through a now defunct distributor, Team-Tex America. Therefore, Nania and/or Team-Tex may be prominent on the CR, packaging, and ordering information, whereas Combi, the most recent importer, may not be indicated (but is responsible).

BabyRide is a CR with no base that states no minimum weight (allowing use "from birth"), sold exclusively through institutional distributors, so most units in circulation have been provided to caregivers through distribution programs. These programs are advised to check inventory and notify clientele.

Contact: Email customerservice@combiusa.com; no remedy announced as of print date.

Compass (See Tomy)

Convaid (See Etac)
844-876-6245 etac.us.com

Cosco (See Dorel)

CYBEX
877-242-5676 cybex-online.com

RF-Only Seats

Aton made 3/29/17-1/4/20.

Aton Q made 3/13/17-1/3/20.

Aton M made 3/17/18-11/1/20.

Aton 2 made 3/29/17-10/27/20.

Cloud Q made 7/6/17-10/20/20.

Problem: The webbing for the one-inch central harness adjuster strap may fray too easily; when frayed, the webbing fails to meet strength requirements of FMVSS 213. The recall kit has a new harness adjuster strap (with end not folded/sewn) and instructions for replacement. (Owners who previously incurred a cost for replacement due to this problem should call, as well.)

Call: 877-242-5676

Convertible Seat

Cyberx Sirona M models 518000385, 518002153, 518000387, 518002145, 518002149, 518002151, and 519000211, made 11/3/17 through 8/31/18.

Problem: It's possible for a child to pick pieces of foam from the headrest padding, which could be an ingestion/choking hazard.

Call: 877-242-5676 to get a manufacturer-provided tape kit with

instructions for how to apply it to the lower edge of the headrest's EPS foam. The car seat is safe to use while awaiting the fix, provided caregivers understand that they must monitor children to ensure they do not pick at foam.

Diono 855-242-5676 diono.com

All-in-1 Seats

Radian RXT, Radian R100, Radian R120, Rainier, Olympia, & Pacifica made 11/25/2013-9/25/2017.

Problem: The seat may not adequately protect a child *when used in harnessed mode & installed forward-facing*.

Children using seat in booster mode are not affected. Forward-facing children using the harness, who weigh more than 65 pounds (with any installation method) MUST use top tether. For vehicles not equipped with tether anchor, use seat in booster mode. Forward-facing children using the harness who weigh 65 pounds or less whose seat is installed with a lap-only belt in vehicles without a tether anchor MUST install repair kit.

Call: 855-215-4951.

Booster Seat

Cambria 2 booster model numbers 31200-US-01, 31201-US-01, and 31202-US-01 made 9/5/2020, through 11/30/2020, and used in highback mode.

Problem: The headrest may crack and possibly separate from the booster during a crash. Diono will provide a replacement seat back. The replacement seat back does not have padding; the instructions will say to transfer the original padding to the replacement seat back and how to attach the seat back to the seat.

Call: 855-463-4666.

Dorel Juvenile Group

(Cosco, Eddie Bauer, Safety 1st, Maxi-Cosi)
800-544-1108 djgusa.com

RF-Only Seats

The base of the following models, all made February 2023 or earlier, with a self-retracting system for the LA attachment. Note: CRs with similar names that have non-retracting LA attachment are not included.

Maxi-Cosi:

Coral XP (#IC313) made 5/1/20-2/28/23. (Also, see next recall.)

Mico XP (#IC336, #IC38) made 9/1/20-2/28/23.

Mico XP Max (#IC337) made

9/1/20-2/28/23.

Mico Luxe+, (#IC370) made 9/1/20-2/28/23.

Any replacement base with self-retracting LA attachment (#IC335) made 5/1/20-2/28/23.

Safety 1st:

onBoard 35 Secure Tech (#IC351) made 5/1/20-2/28/23.

Any replacement base with self-retracting LA attachment (Secure Tech) pre-2/23/23

Also, the recalled base may be included in the following travel systems: Gia XP, Zelia 2 Max, Tayla, Tayla XP, Adorra, Mara XT, and Lila CP (Canada).

Problem: The LA attachment system may not hold the base properly. Owner's will be sent a new base. Until received, install the CR with the base (or baseless) using the vehicle seat belt only.

Call: Contact Dorel at 877-657-9546 or send an email to RetractableLatchRecall@djgusa.com

Maxi-Cosi Coral XP #IC313, all dates. (Also, see prior recall.)

Problem: The inner carrier cannot be installed in the car without the use of a supplemental device (the outer carrier) and therefore the CR fails to meet FMVSS 213 requirements, including those regarding installation and dynamic performance. Until a refund or replacement has been issued, the CR's inner carrier may be installed while properly attached to the outer carrier, per all instructions.

Call: 877-657-9546 or email CoralXPRecall@djgusa.com.

Convertible Seats

Maxi-Cosi Pria 70, Pria 85 and Pria 85 Max,

Made Jan. 1, 2019-Sept. 8, 2021

Problem: The car seat allows more forward head movement than allowed by FMVSS 213 *when used by a child weighing more than 65 pounds and installed forward-facing using a lap-only belt and no tether.* (CRs properly used in rear-facing mode are not affected.)

The recall fix from Dorel is new instructions and labeling that limit use of the CR to a maximum child size of 65 pounds or 49 inches for any forward-facing installation. Owners using or intending to use the CR for a child over 65 pounds may request a free Maxi-Cosi Rodi Sport booster. Until fixed, follow these new instructions. Always attach the tether when used forward-facing, whenever possible.

Call: 877-657-9546 or email

pria85recall@djgusa.com.

Booster Seat

Babideal Model "Storm," #BC901BPXL, made 2/28/19 and sold at Family Dollar stores. **Problem:** Some required safety labels are missing, and some present labels are for non-vehicle boosters only (wrongly indicating the booster should not be used in vehicles). **Call:** 877-657-9546 to get a new fabric cover with appropriate labels.

Etac (incl. Convaid, R82)
844-876-6245 etac.us.com
R82 Quokka made May 2019. **Problem:** A non-recall, consumer advisory: Some units, upon unboxing, have been found to have a broken RF belt guide. **Call:** Consumers with this problem should call 844-876-6245 to order a free fix kit with instructions.

Note: These units are now all expired.

All-in-1 Seats

Milestone Models 1910130, 1923980, 1926538, 1926539 made 7/9/15-10/9/15. **Problem:** Labels do not have required wording about how to install seat with LATCH or seat belt per FMVSS 213. Recall does not affect safety performance.
Call: 800-345-4109 for new label.

Combination Seats

Argos 70 & Argos 70 Elite made 5/1/11-7/31/13.
Nautilus, Nautilus Elite, Nautilus Plus, 10/1/07-7/31/13 and 8/19/13.
Problem: Some buckles become stuck in latched position. Safety of buckle is NOT affected.
Call: 877-766-7470.

Booster Seats

Turbo Booster Models:
• 1963973 made 3/8/16-4/2/16
• 1963974 made 12/22/15-3/30/16
• 1963975 made 12/22/15-3/17/16
• 1963976 made 2/17/16-3/24/16
• 1967886 made 1/13/16-4/5/16
• 1975173 made 3/29/16

Problem: Owner's manual omits instruction to prevent seat from becoming projectile by buckling it when not in use. Seat is still effective to restrain child. **Call:** 800-345-4109.

Harmony

877-306-1001 harmonyjuvenile.com

Big Boost Deluxe made 11/1/15-6/24/17. **Problem:** In a crash, seat belt may cause excessive force on child's chest increasing risk of injury. **Call:** 877-306-1001.

JD E-Commerce America Limited

Marainbow (made any date, also sold under Joybuy Express) AS WELL AS "materially similar products that may suffer from the noted defects." (Find an image that's representative of affected products and a list of product names, including Portable Infant Safe Seat, at www.saferideneeds.com/unsafe-products.)

Problem: The device does not comply with FMVSS 213 in several ways. Its design prohibits it from being installed properly, and installation labels display incorrect instructions. It may also lack an owner's manual and/or recall registration card.

Call: 302-426-4543 for a refund. Consumer will be required to prove that the product has been destroyed by sending images to overseas-service@jd.com.

Owners may also contact NHTSA at 888-327-4236 (reference NHTSA Campaigns #22C-007 and #22C-008).

Editor's Note: Due to the integral nature of some of the defects, as well as the seriousness of the risk, **DO NOT USE this product.** It should be replaced with a 213-compliant CR that's suitable for the child.

Joybuy Express
